Who are we?

International Association For Beauty Centers **International Club For Beauty Centers Ltd**

was established in response to the rapid scientific, medical, and technological advancements in the field of cosmetic and aesthetic care. Non-surgical beauty centers have significantly spread worldwide, offering their services to individuals everywhere. However, due to the lack of comprehensive regulation and oversight in the beauty industry, despite its direct relevance to human bodies, there was a need for a unified entity to cater to all those interested in this field.

Hence, the idea of establishing the International Club for Beauty Centers emerged. It is a licensed international association with registration number

12171070 issued by the United Kingdom. The association encompasses all professionals and enthusiasts in the field of beauty, including beauty centers, clinics, doctors, and professional or aspiring cosmetic specialists. It welcomes individuals of various ages and Arab and foreign nationalities. The association aims to establish connections and communication with these individuals and organizations through unified events and activities. It organizes their professional paths, provides support, and elevates their profession to sophisticated and well-organized levels.

In addition to its official licensing, the association has gained strong credibility and recognition by being accredited by BV/UKAS, the highest global entity for applying quality management standards. As a result, the association is committed to adhering to administrative auditing procedures based on the best global quality systems. It enjoys a high level of customer trust worldwide.
